

Project Initialization and Planning Phase

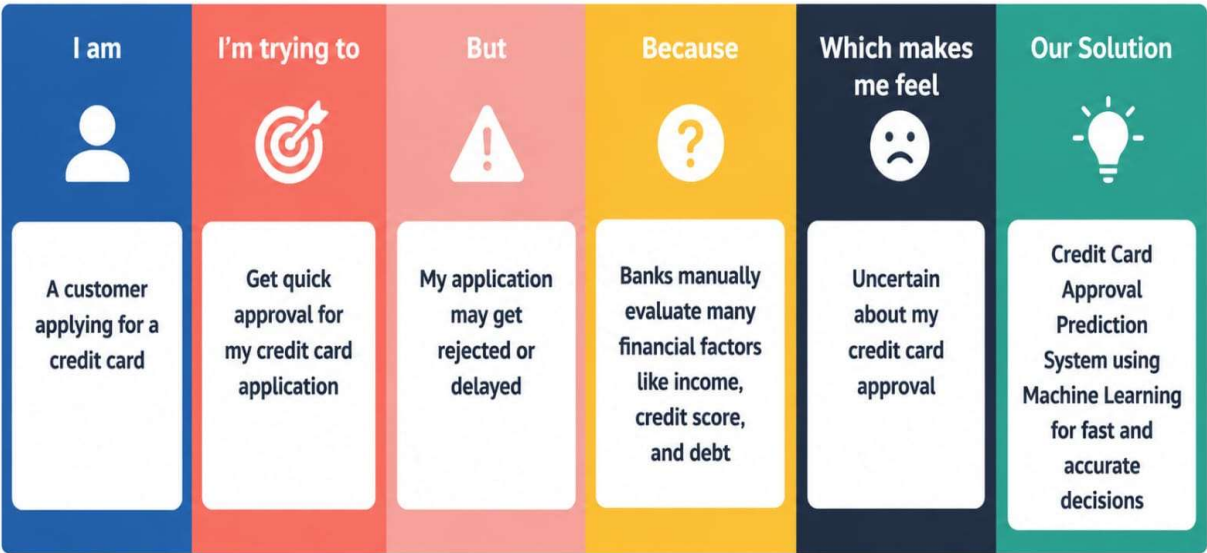

Date	6 july 2026
Team ID	SWTID-2026-8420
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

The Credit Card Approval Prediction System aims to solve the challenges faced by customers and banks during the credit card approval process. Customers often experience uncertainty and delays because approval decisions depend on various financial factors such as income, credit score, repayment history, existing loans, and debt.

Example:

CUSTOMER PROBLEM STATEMENT

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer applying for a credit card	Get quick approval for my credit card application	My application may get rejected or delayed.	Banks manually evaluate many financial factors like income, credit, score, and debt.	Uncertain about my credit card approval.
