

Empathy Map

Date	6 july 2026
Team ID	SWTID-2026-8420
Project Name	Credit Card Approval Prediction
Maximum Marks	4 Marks

Empathy Map :

This empathy map represents the perspective of a customer applying for a credit card. It helps understand the applicant's needs, concerns, actions, and emotions so that the machine learning system can provide faster and fairer approval decisions.

EMPATHY MAP

 SAYS	 THINKS
• I need a credit card with quick approval. • I hope my application is accepted. • I want a transparent approval process. • I want to know my eligibility before applying. • I expect a fair decision.	• Will my credit score affect approval? • Are my income and documents sufficient? • What are the chances of my application being approved? • How long will the approval take? • Will I get a high credit limit?
 DOES	 FEELS
• Submits personal and financial details. • Uploads required documents. • Checks eligibility criteria. • Applies for a credit card online/offline. • Tracks application status. • Compares credit card offers. • Reads terms and conditions.	• Anxious while waiting for approval. • Hopeful for a positive outcome. • Uncertain about eligibility. • Frustrated if the process is delayed. • Confident if communication is clear. • Relieved when approved. • Disappointed if rejected.

PERSONA NAME
 Credit Card Applicant
